PROFESSIONAL SUMMARY

I'm Full Stack Developer and I have developed strong foundation in programming language such as JavaScript , Python , React.js , Node.js and also gained experience in web development and database management through my course work. I am quick learner & detailed-oriented individual who is excited to apply my skills and knowledge in dynamic work environment.

SKILLS

- HTML 5
- JAVASCRIPT
- PYTHON
- MYSQL
- CSS 3
- REACT.JS
- NODE.JS
- MONGO DB

PROFESSIONAL EXPERIENCE

CELEBAL TECHNOLOGIES

React.JS Developer Intern | May 2023 - August 2023

- My internship was incredibly insightful, providing me with valuable hands-on experience in React.js development.
- Implemented responsive design principles, ensuring seamless user experiences across various devices and screen sizes.
- Utilized React Router for handling client-side routing and navigation.
- Worked closely with the UI/UX mockups into functional React components, ensuring pixel-perfect implementation.
- Actively sought out mentorship from senior developers, improving my understanding of advanced React concepts and best practices.
- Took the initiative to explore and implement new features and technologies, such as React Hooks and Context API, to enhance project functionality.

PROJECTS

Rest&Peace (Hotel-Room Booking)

HTML, CSS, JavaScript, React.JS

- Develop a User-Friendly Booking Platform: Created an intuitive and user-friendly web application that allows travelers to easily book hotel rooms based on their preferences, budget, and location.
- Github:- https://github.com/LearnWithChirag/Hotel-Room-Booking
- Netlify:- https://room-booking-by-chirag.netlify.app/

My Portfolio

HTML, CSS, JavaScript

- My portfolio website is a dynamic showcase of my skills, achievements, and passion for web development, it combines elegant design with interactive features to provide visitors with a glimpse of my projects and expertise.
- Github:- https://github.com/LearnWithChirag/Personal-Portfolio
- Netlify:- https://chirag-portfolio24.netlify.app/

Travel Essential

HTML, CSS, JavaScript, React.JS

- My travel essentials website, powered by React.js, simplifies trip planning. Now, Say goodbye to last-minute packing stress and hello to organized and worry-free trips.
- It helps you keep track of all the items you need for your journey, ensuring nothing is left behind. With a user-friendly interface.
- Github:- https://github.com/LearnWithChirag/Travel-Essentials
- Netlify:- https://travel-essentials.netlify.app/

Guess My Number

HTML, CSS, JavaScript

- My 'Guess My Number' game is a fun and interactive web experience that challenges your guessing skills. It's a game where you try to guess the hidden number within a certain range.
- The game provides feedback with each guess, making it an exciting and entertaining way to test your intuition and logic.
